

Fee Refund Policy

1. Tuition Fee Reimbursement: A full refund of tuition fees is applicable if the withdrawal request is submitted within ten days of admission. Thereafter, a pro-rata deduction will be applied based on the duration of the semester attended.

2. Course Fee Eligibility: Special laboratory and technical course fees are refundable only if the student has not accessed the specialized facilities. Once a student attends a practical session, these fees become non-refundable.

3. Library Security Deposit: The library fee is refundable in full upon the successful return of all issued books and resources. Any outstanding fines or damaged materials will be deducted from the final settlement.

4. Stationery and Supplies: Charges for stationery kits and drafting instruments are strictly non-refundable once the items have been collected. These items are considered personal property upon issuance to the student.

5. Administrative Charges: A non-refundable processing fee is applicable to all refund applications to cover administrative costs. This amount is deducted automatically from the total refundable balance.

6. Application Procedure: Students must submit a formal refund request through the official institutional portal to initiate the process. Verbal requests or informal emails will not be considered valid for processing timelines.

7. Timeline for Disbursement: Approved refund amounts will be credited to the student's registered bank account within thirty working days. The institution does not issue cash refunds under any circumstances.

8. Clearance Certificate: A "No Dues Certificate" from all departments is mandatory before any refund claim is finalized. Failure to provide this document will result in the suspension of the refund process.

This policy is gender-neutral and applies to all registered engineering students. For further queries, please contact the Accounts Department.
